

Product Owner

- + **Product Management**
- + **Technology, Health and Exercise Science**

KINVENT Biomécanique:

We are a growing HEALTH & SPORT TECH start-up actively involved in the fields of physical rehabilitation and sports biomechanics. We produce innovative measurement and training devices connected to an intuitive application to facilitate testing and physical rehabilitation. Our strength at KINVENT is that we can think of and produce solutions to any challenge in sports biomechanics and physical rehabilitation.

About the role:

The PO has a significant role in maximizing the value produced by the Research and Development team and ensuring Stories meet our users needs. The Product Owner (PO) is our expert in project management, proficient in agile and scrum methodologies. He/She is responsible for defining stories and use cases based on feedback from multiple sources (users, sales team, marketing team, research and development team). The PO builds the Team Backlog and streamlines the execution of product priorities as defined by the CSIO, while maintaining the conceptual and technical integrity of the features or components for the team. A successful PO will display great communication skills, be driven and always seek market innovation.

About You:

You come from either an exercise science or technology background but you have a background in physiotherapy or exercise for health from your academic background or past personal experience.

You are trained in project management methodologies (agile, scrum, design thinking) with at least one year of experience implementing them in a private company.

You are interested in the start-up ecosystem and passionate about innovation through technology.

You are a creative person and like to think “out of the box”

Requirements

- Master of Science or Engineering
- Exercise Science or Physiotherapy Background (degrees or experience)
- At least one year of experience in project management, ideally using agile/scrum methodologies.
- Proficient in English (C1 or C2)
- Creative thinking, Driven personality, Great communication
